*Let's all work together to keep our  
community looking great!*

Hello to Summer! Whether it's beach days, road trips, or swimming pools, I hope you are finding fun ways to stay cool.

I want to express thanks for the support from those who signed up for the Swim Club this year! We have reached maximum membership capacity, and registration for 2022 is now closed. Mark your calendars to sign up early next year to save your spot for summertime fun in 2023.

Frequently, homeowners reach out to us with a great idea they want to share with the Board. A good idea needs a spokesperson; if you've come up with the idea, that spokesperson is you. Homeowners can speak with the Board directly under member comments at monthly Board meetings. If you can imagine the concept and how it will benefit the community, paint that picture in your presentation. Generally, members are granted three to five minutes to speak on an item of interest.

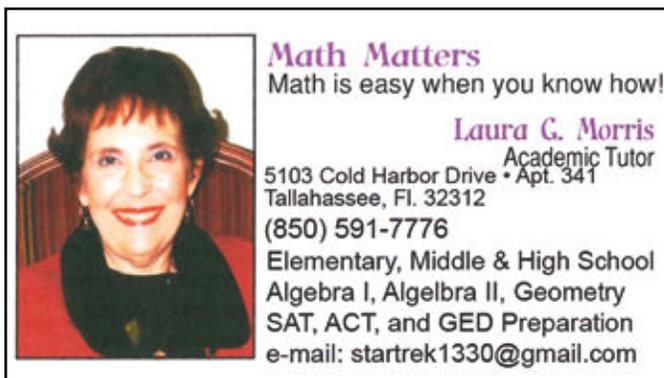

Board meetings are held on the first Tuesday of every month at 6:30 p.m. Below is a summary of actions taken by the Board during the second quarter of 2022:

- ✔ Approved removal of the Shamrock South park slide due to safety concerns and our insurance carrier's recommendation.
- ✔ Appointed homeowner volunteers to serve on various committees.

- ✔ Hired Weston Trawick as the electrical contractor for the front entrance electrical project.
- ✔ Approved the purchase of new furniture for the Swim Club.
- ✔ Approved revisions for the Fines and Violations Policy.
- ✔ Approved proposed work to restore the KHA office drainage pond to its original function.
- ✔ Accepted new landscaping proposals for the one-time cleanup and maintenance of KHA's main entrances.
- ✔ Levied fines for unresolved violations.

Have a great Summer with family and friends! As always, the KHA team is here to support the residents of Killlearn. Please let us know how we can be of assistance. ✔

## President's Message

In the President's Message from the most recent Kloverleaf, I discussed the sale of golf course and potential options to correct the deplorable conditions of our lakes. Because these two projects are generating a great deal of conversation within the community, I will provide a progress report here in the second quarter edition of Kloverleaf.

Since reporting the sale of the golf course in the first quarter, new ownership has been busy not only maintaining the playing condition and operations of the existing course, they have also begun planning and making preparations for construction to begin on the "new" golf course. New General Manager, Ellis Pilgreen, has been identifying and removing designated trees from the course as well as keeping up to date with the maintenance and mowing of the existing conservation area. Ellis, along with David Lightburn, Project Manager of Reconstruction, communicate regularly with KHA keeping the Association updated with their progress at the course. We have received a number of calls at KHA inquiring about plans for the new facility. The specific plans and renderings of those plans are still being developed by new ownership. I anticipate them to be complete and that KHA will have an opportunity to view the plans and associated renderings by summer's end. There are tentative plans to close the existing course and facilities after Labor Day for demolition and construction to begin in earnest. New ownership has indicated that the course and facilities will remain closed throughout the construction process with tentative plans to reopen within 18 months.

Much progress has been made with our project to return our lakes to functional status as recreational lakes. As I mentioned last quarter, we have discovered that the only way to maintain consistent water levels in the lakes sufficient to again become functional as recreational lakes is to pump water using our existing wells. In my previous message I also identified two options to accomplish the pumping of the lakes;

1. Using KHA money acquire new pumps, construction services, and professional services ourselves (approximated at \$150,000 - \$200,000);  
or
2. Continue the ongoing pursuit of funding from the City of Tallahassee to install new pumps, construction, and professional services.

During this past quarter, KHA solicited the input of residents that pay elevated, premium association dues for lakefront property. The residents that fell into that category (elevated dues for lakefront property) were contacted and asked to complete an opinion survey. The results of the survey have been collected and calculated:

- ☘ 97% of respondents indicated that they desire to obtain new pumps and permits in order to maintain consistent water levels in the lakes.
- ☘ 75% of respondents indicated their preference to continue to pursue public funding to secure new pumps and permits.
- ☘ 22% of respondents indicated their preference to pursue private funding (KHA) to secure new pumps and permits.
- ☘ 3% of respondents indicated their preference to not pursue the acquisition of new pumps and permits.

The overwhelming response from the lakes residents (those who pay elevated dues for lakefront property) to pursue new pumps/permits was noted by the Board at the June meeting.

Please take the opportunity to weigh in on the issue and make your opinion known to the Board. The same information and survey provided to the lakes residents is available for you at the KHA office, which is located at 2705 Killarney Way. If you would like to learn more and/or share your opinion with the Board, please go by the KHA office to complete and submit a survey.

I encourage you to consider attending KHA's monthly meeting via Zoom, get to know your neighbors, and continue to look for ways that we all can work to improve Killlearn. It is all of our responsibility to ensure that Killlearn Estates remains a desirable community. ☘

- **Steve Givens**, *President*

## Maintenance Committee

### A Pretty Face Takes Time

You may notice work being done at the main entrance to Killlearn Estates. We have contracted with a local electrical company to correct wiring errors at the front entrance. When the electrical work is complete, the area will be refreshed with new shrubs, flowers, trimming of existing shrubs and a thorough weeding. Later new lighting will be installed to brighten the entrance. Please be patient as we beautify our main entrance.

We also have plans to update the entrances at Shamrock South, Kerry Forrest Parkway, and the roundabouts at Killarney Way and Kerry Forest Parkway. 🍀

**Please remind your lawn maintenance professionals not to blow grass clippings into the street or down the storm drains. We don't want them in our lakes or any others.**

Neighborhood Tip:  
**Please pick up after your pet.**

Let's all work together to keep our community looking great!

Neighborhood Tip:  
**Don't forget to lock your vehicles and homes to reduce vandalism and break-ins.**

## JULY 29 DEADLINE

### CALL FOR CANDIDATES FOR THE KHA BOARD OF DIRECTORS

Do you want to make a difference in your community? Are there issues in Killlearn Estates you want to see addressed? If so, Killlearn Homes Association (KHA) is looking for candidates interested in serving on the Board of Directors.

KHA's Board of Directors is comprised of nine (9) members who serve in a volunteer capacity. As the governing entity serving our nearly 4,000 members, the board provides an excellent opportunity to serve our neighborhood.

If you are interested in serving on the KHA Board of Directors and meet the requirements below, please obtain the Nomination Application from TownSq or by contacting our Community Association Manager, Judy Sedwick, at [kha@killlearn.org](mailto:kha@killlearn.org). **The deadline to submit your completed Nomination Application is 5 p.m. on Friday, July 29, 2022.**

#### Candidate Eligibility Requirements

To be eligible as a candidate, you must:

- ☘ Own property in Killlearn Estates;
- ☘ Be in good standing with all payments to KHA;
- ☘ Be available to attend Board of Directors meetings, which are held at 6:30 p.m. on the first Tuesday of each month;
- ☘ Submit a completed Nomination Application by 5 p.m. on Friday, July 29; and
- ☘ Be willing to serve a three (3) year term from January 1, 2023, to December 31, 2025.

#### Candidate Selection Process

There will be four (4) vacancies on the nine (9) member Board of Directors next year.

Pursuant to Article VII, Section IV of KHA's Bylaws – and utilizing the information provided by interested members from Nomination Applications – the KHA Nominating Committee will select eight (8) candidates for inclusion on the ballot for members to vote on later this fall.

The four (4) candidates receiving the most votes during the election later this fall will be elected to the KHA Board of Directors for a term of three years (January 1, 2023 – December 31, 2025). ☘

## Communications Corner

by Luke Brown, Secretary

### YOU MAY HAVE ALWAYS WANTED A POOL—JUST NOT INSIDE

It's Summer in Killlearn Estates. The good news is that the swim club is open, the kids are off from school, adults may be able to take some well-earned time off from work, and families may take vacations.

The bad news is that Hurricane Season is again here, as is the time for heavy rain, and preparation should be made. Even if a named hurricane does not hit Tallahassee, wind and torrential rain may create similar problems to one. Overhanging limbs should be trimmed, food and water for families and pets should be stockpiled, as should batteries and other emergency supplies. A plan, at least a preliminary one, should be developed about whether "to stay" or "to go" (absent emergency evacuation orders). If you must leave, have a plan regarding destinations and routes.

But those are just the basic, common-sense considerations.

It's probably fair to say that all Killlearn Estates homeowners have homeowner's insurance. I will not discuss why you need it or how much you should have. I'm certainly not going to guess why you don't have it if you don't.

**Understand that homeowner's insurance does not cover floods in the same way that it covers other losses. A special insurance policy—a Flood Policy—is needed.**

Weather conditions can create flooding even absent a named hurricane in Tallahassee. Floods usually occurs along four drainage ditches, the nearest to us is the Northeast Drainage Ditch near

Centerville Road. We have lakes that, however dry they may have been, can cause flooding. Torrents of rain, even for a reasonably short period, may not be absorbed into the ground and cause flooding.

#### What's a Flood?

FEMA defines it in a few ways, but most applicable to Killlearn Estates it is:

- ☘ A general and temporary condition of partial or complete inundation of two or more acres of normally dry land area or of two or more properties (one of which must be the one covered by the [flood insurance] policyholder's policy) caused by:
  - ☘ The overflow of *inland* or tidal waters
  - ☘ Unusual and rapid *accumulation* or *runoff* of surface waters from any source
- ☘ Flash flooding which can occur when there is heavy rain within a short period

If you have another house, for example, at a beach, there may be more extensive flooding risks as defined by FEMA that you should consider.

#### Why You Should (maybe) Consider Flood Insurance

The direct answer is because in a worst-case situation, if your house floods, the homeowner's policy may not cover the damage attributable to the flood, at least in the same way and to the same extent as a homeowner's policy. Even if some coverage is provided, a much higher deductible will be imposed (you will have to pay more toward the cost of repair). The reason for these differences is that the potential magnitude of damage caused by a flood can be financially ruinous to an insurance company. Remember that your home is not the

Neighborhood Tip:  
**Please be mindful about noise levels  
in the community.**

*Let's all work together to keep our  
community looking great!*

only one insured—your damage alone would not bankrupt the insurer. But in the aggregate, all claims resulting from a flood could devastate it.

### **What To Do?**

I'm not going to give you advice, nor do I sell insurance. However, the "what to do" depends on how much of a risk-taker you are.

You can decide to do nothing additional to keeping your homeowner's policy and bet that a hurricane or other weather condition resulting in a flood will come along. If you win that bet, you will have saved the premium for the flood insurance and any additional deductible amounts payable to your homeowner's insurer.

However, if you lose the bet, depending on the terms of the homeowner's policy, it won't pay anything toward the flood damage, or you will be out-of-pocket a great deal more than you planned to pay for your deductible.

Be aware that like all insurance, flood coverage does not cover everything. In particular, the water must enter from outside of your home and does not cover landscaping, pools, or living expenses.

Review your options with your licensed insurance agent or broker sooner rather than later. Unlike other kinds of insurance that can take effect immediately, with few exceptions, a flood insurance policy usually takes 30 days to go into effect.

*As the saying goes, "Pay your money (or not) and take your chances."*

Have a great and safe Summer. 🍀

## Temporary Structures

Hello neighbors,

Summer is here and with that comes the time for cleaning and renovations. I've received a lot of questions about temporary structures, like PODS, storage containers, etc. over the past few weeks. As such, I wanted to take a moment to clarify what the rules are regarding these types of structures. Our governing documents say that homeowners can have these containers outside of their property for a period of 30 days. This requirement is only waived if the homeowner has expressed permission from the ACC for an approved construction project, such as a new home construction, siding repair, etc.

A common issue arises when the structures are utilized for an interior renovation project, such as tile replacement, bathroom renovations, etc. Interior renovations and modifications do not require ACC approval; however, the homeowner would need to obtain approval for the placement of the storage containers for a specified amount of time.

In the coming months, the compliance staff will continue to address these unauthorized temporary structures through our established violations process. As always, we appreciate all homeowners' efforts to keep their properties looking in great shape.

If you have any questions or concerns, please feel free to contact the association office for assistance. 🍀

I hope everyone has a great summer!

Caleb Martinez

## Architectural Control Committee FAQs

The Architectural Control Committee (ACC) is a group of people from various backgrounds that come together to review homeowner's applications for new projects. The purpose of this committee is to protect the property values of homeowners by ensuring that the projects that are being proposed are compliant with the covenants and restrictions of the community, and that the potential alterations will be beneficial for the entire community.

### What projects do I need approval on?

All homeowners should apply to the ACC for any project that alters the exterior appearance of the property. This includes but is not limited to, tree removals, painting, fence installation, roof replacements, etc.

### How long will this process take? Is there a fee involved?

The entire ACC process typically takes about 2 weeks. I always encourage homeowners to apply early. ACC decisions are valid for a period of 8 months, so it is always better to apply sooner rather than later. As always, ACC applications are completely free to residents.

### Is there ever a situation where I do not need to apply?

Yes. Any general repair and/or maintenance project that will use the exact same materials that currently exist on the property does not need to be approved. This includes siding repair, shingle repair, driveway repair, etc. If you have a question as to whether your project falls under these guidelines, please call the KHA office for assistance.

### My vendor said I do not need to apply through the HOA, is this true?

No. It is always best to check directly with the KHA Office to ensure that your project is going through the correct review process. Even if your vendor ensures you that no approval is necessary, it is always best to check personally as the homeowner will be held liable for any unapproved exterior modifications.

### I have approval from KHA, am I okay to begin construction?

Almost! You will want to make sure that your vendor is licensed and insured to avoid any hassle in the future. Additionally, if you are a part of a sub-association, you will want to make sure to check in with your sub-association leadership to verify if a separate approval is needed from both parties.

### I've seen an ongoing construction that may be unapproved, what should I do?

If you have any questions about ongoing construction, please feel free to give the KHA office a call to let us know. The office staff will investigate the issue the same day and take action as needed. 🍀

### Summer Safety

## Tips to Beat the Heat and Stay Cool this Summer

- ♣ Drink plenty of cold fluids especially when exercising, participating in outdoor recreation, or working in the yard. **HYDRATE! HYDRATE! HYDRATE!**
- ♣ Wear light colored, loose clothing.
- ♣ Take cool showers or baths.
- ♣ Sprinkle water on your skin or clothes.
- ♣ Avoid the sun during the hottest part of the day.

**Architectural Control Committee Actions for QUARTER 2 2022**  
**The Committee meets every other Wednesday at 10 A.M.**  
**in the Killlearn Homes Association Board Room**
